**VOICE RECORDER****like.no.other™**

Portable Microcassette Dictating Machine

features

- **Microcassette System** uses ultra-compact easy to obtain microcassettes for recording and playback convenience.
- ▲ **Slide Switch Operation** slides into position with one finger and changes the operating mode from Dictate to Stop to Listen to Backspace.
- ▲ **Metal Case** is designed to withstand rugged use while dictating in or out of office, in the car, or elsewhere.
- **Voice Operated Recording (VOR) With Mic Sensitivity Adjustment** activates the recorder only when audible sound is present, conserving the tape and eliminating soundless pauses.
- **Lock Switch** locks controls to prevent accidental activation of any function.
- **Dictate Conference Switch** enables the unit to record in different situations such as for individual recording or in meetings.
- **Fast Playback Function** reduces the time needed to review recordings.
- **Fast Forward Cue** allows listening to the tape at high speed to locate specific passages for editing.
- **LED Record/Battery Indicator** verifies when unit is in Record mode and confirms battery strength.
- **3-Digit Tape Counter** gives you a visible measure of tape elapsed for rapid access when editing and listening.
- **2 Record/Playback Speeds** gives you the option of using a standard microcassette for an extended recording or dictation as long as 2 hours.
- ▲ **Audible End of Tape Alarm** sounds an audible alert when the end of tape is reached.
- **Microphone Jack** lets you connect an external microphone if desired.
- **Earphone Jack** for private listening with optional earphone.
